### **Control of Discrete Event Systems Automata and Petri Net**

Control of Discrete-event Systems provides an introduction to discrete-event systems for readers that are not familiar with this class of systems, but also provides an introduction to research problems and open issues of current interest to readers already familiar with them. Most of the material in this book has been presented during a Ph.D. school held in Cagliari, Italy, in June 2011.

### **Control of Discrete Event Systems ERCIM**

The use of computers for control has recently led to control theory for logical operations in addition to control theory for continuous variable systems. The long term aim of control of discrete-event systems is to develop theory and algorithms for the logic control of engineering systems by computers. The following ERCIM institutes participate in this research topic: CWI, INRIA-IRISA, and SICS.KTH.
