Subject test?

A few of the answers in this post address the math section in the general GRE test (which includes also verbal and writing sections). My answer addresses the GRE Subject Exam in Mathematics, which is an entirely different test - it has only math questions encompassing the material of advanced college level math.

Cracking the GRE Mathematics Subject Test - pdf.tips

The GRE Math Subject Test consists of about 66 multiple-choice questions that are intended to assess the knowledge and skills you've developed as an undergraduate math major. The time limit is 2 hours and 50 minutes (so you have about 2.5 minutes per question, but I didn't need to tell you that). Each question is followed by five choices-A through E-and your job, of course, is to choose the one right answer and bubble it in on a separate answer sheet in #2 lead pencil. No notes, books

GRE Mathematics Subject Test (For Test Takers)

Overview. The test consists of approximately 66 multiple-choice questions drawn from courses commonly offered at the undergraduate level. Approximately 50 percent of the questions involve calculus and its applications subject matter that is assumed to be common to the backgrounds of almost all mathematics majors.
