[Garment Printers - Direct To Garment Printing - Brother](#)

Direct to garment printing (DTG) uses inkjet printing technology to send full color designs directly from a computer directly to a digital printer with a garment loaded into it. With minimal training or experience, you can use our DTG printers to create high-quality printed garments at production level speeds.

[Direct to garment printing - Wikipedia](#)

Direct to garment printing (DTG) is a process of printing on textiles using specialized ink jet technology. DTG printers hold the garment in a fixed position, and use specialty inks that are applied to the textile directly by the print head and are absorbed by the garment's fibers. Since this is a digital process the print is sharper and has a
