Off Grid Solar power kits for the Do It Yourself home owner

This package is designed to provide on-site solar electrical power during the construction of your off-grid solar home. This system relies on a back-up generator to charge your batteries. In other words no solar components are included. The backup generator will only run when your batteries need recharging. Thus saving on fuel costs while providing 24-hour solar electrical power.

Off-Grid Solar System Calculator | Size Your Off-Grid System

Off-Grid Calculator: Size Your System for Off-Grid. If you are moving from a utility-connected home in the 'burbs' to an off-grid home in the boonies, you will have the opportunity (perhaps necessary) of downsizing your electricity usage. In order to calculate how large your home power system needs to be, run the Off-Grid sizing calculator below. Run the System Sizing Calculator with with
