Stratabound ore deposits in the Andes : A review and a classification according to their geotectonic setting

Morphology of ore deposits and their relations with host rocks

Morphology and Relationship with Host Rocks Mode of occurrence of an ore deposit is important from the mining point of view. Sedimentary ore deposits are roughly tabular, most others occur in a variety of forms.

Notes on the terms stratiform , stratabound and ...

STRATABOUND Sratabound ore deposits are more easily discussed if the concepts of strata and strati-form are clear. Stratabound and stratiform deposits are closely related; in fact stratiform deposits are always stratabound although the reverse is not true. The essential difference between the types is that stratiform implies economic mineralisation over the full strati-graphic thickness of
